DISCHER COMPACT

Product details

The compact one with a plan

The DISCHER COMPACT combines professional cleaning and disinfection technology with particularly compact installation dimensions and a high degree of flexibility in day-to-day use.

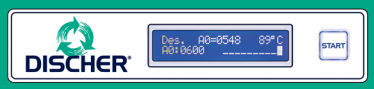
Despite its space-saving design, the appliance delivers reliable results, well-thought-out functionality and a robust design for long-term use.

With installation dimensions of just 860 × 500 × 570 mm (H × W × D), the COMPACT can be flexibly integrated into almost any room layout and, if required, expanded modularly to form a complete workstation.

Easy to use

Hygienic power-on film with one-button operation

The LCD graphic display clearly shows all relevant operating parameters and assists the operator in day-to-day use



Hygiene & safety

Three freely adjustable A0 values

for customisable disinfection intensity

Automatic system disinfection

for regular assurance of system hygiene

Efficiency & control

Rush-hour mode

for increased throughput at high capacity utilisation

Data loggers for process documentation

to ensure maximum transparency and traceability of all processes
